Roulette is one of the popular wheel game played across the casinos all over the world. The wheels of the Roulette have been in the game since hundreds of years, whereas the modern wheels are more reliable and consistent. The rules, functions, operations remain the same since the 18th century.

Though it may be hard to discover the pattern of numbers on the wheel, they are not distributed randomly. Instead, a certain specific order of number is followed at most casinos about existing rules, generally beginning from a single zero. But the pattern from single zero to double zero wheels is very different.

European Roulette Wheel

As per standard rules, the European roulette table has 37 numbers, starting from 0, then 1 to 36 on which bets are placed. The wheel is divided into two colors, red and black. Hence, the red and black numbers change. To the right of zero in the arc, there are nine small numbers in black (2, 4, 6, 8, 10, 11, 13, 15, 17), and then nine big numbers in red (19, 21, 23, 25, 27, 32, 34, 36) on the outside.

Similarly, to the left of zero, there are nine numbers in black, (20, 22, 26, 28, 29, 31, 33, 35) and then there are nine numbers in red, (1, 3, 5, 7, 9, 12, 16, 18). All the numbers face towards the inner side of the roulette wheels. These are the probable chances on which the ball will land. There are rules which state that three standard arcs in the wheel where players place bets.

Rules and How to Play

If you are

wondering how to play European roulette, you have come to the right place. The rules of engagement are very simple. What you need to do is pick a European roulette table and first place your bets. You place your bets by selecting the value of chips reciprocal to the amount you are willing to bet.

You then place the bets on the table. Once the dealer/croupier tells you that all bets are off, you should stop placing bets and make no attempt to. The roulette European wheel will then spin and produce the outcomes. If you have successful bets, you collect your winnings, and if not, your bets are collected by the dealer.

Bets, Odds, and Payouts

Whether you play in-person or try

online European roulette, the game will be very much the same. You have a variety of bets to choose from. They are split into two main groups for convenience – but which group you pick from will also be a significant and important detail. The Inside Bets have much higher payouts, but they come with a smaller chance of success.

The odds of

your success will depend on which bet you have picked – Outside Bets give you a much better chance of winning. Inside Bets trade the chance of success with a bigger payout. And speaking of that, European roulette payouts essentially work in the way demonstrated here.

If you are happy to make a riskier bet for a chance of a better

return, do. If not, you can stick to the outside options such as Even/Odd, Black/Red, High/Low, Dozens, and Columns. You can also use a European roulette payout chart to quickly reference payouts.
