Restrictions:

system bets and lucky 15 bets are prohibited.

Credit bonuses cannot be used for bets in competitions or leagues that are not currently available or that do not take bet types that have accumulators or System Bets available

In regard to b-ball games, it is only available for specific football leagues/tournaments as outlined below. Outright bets relate to ante-post bets on tournament results/division outcomes, including player awards. On ante-post wagers for individual matches that subsequently become postponed or rescheduled, full rules of four or more weeks will govern in all circumstances if original selections are still possible. When placing "Mythical Match-Ups" or football "Venue Changes," ante-post, postponed or rescheduled fights are not eligible. You will lose your stake.

While credit bonuses can be used to buy lottery 5, 7, 11, 16, 28, 35, or 37 for main jackpot divisions only, users cannot use credit bonuses in lottery bets. Users must only use credit bonuses for available bet selections and stakes within specific designated times to meet the bet definition. Bet365 has the right to ban any wagers deemed partially or completely settled using "delayed" payment methods. Likewise, all football and basketball betting restrictions cannot be mixed with bonus earnings given for lotto bets settled on partial result markets.

In addition, free bet funds from credits are unqualified cash/withdrawable balance/main balance withdrawals. There is maximum one active withdrawal in 24 hours. Some funds may occasionally be unable to access this facility due to systems problems. And regarding the winners' closure, various users won't be able to access that and even open one until 1-2 hours most of the time. Pauses are accessible, too, to encompass every possible way we give cash. When someone closes their account permanently as a security feature that is one step ahead against fraud this still applies to the closed account and all active facilities on it. Those who want to pause and deposit - a regular reminder always notifies the last pauser by chat 5 minutes before, reminding him of a possible two-hour cooling pause. Active, ongoing gambling facilities have cooldowns. Additionally, pauses will apply to newly created accounts connected/connected to previously cooled accounts. Regarding all relevant features for bans and game cessation and discontinuance, this applies, excluding bans brought against cool down your session every three days. So try your best to work between cool down rules so your sessions get temporarily banned again after one minute after pausing, if you have too many. This still applies mainly to all features. Most websites may ignore your withdrawals due to our data protection measures; you must complete your full session or pay periods between site usage and our partnering live service before withdrawal withdrawals are viable on subsequent occasions with no exceptions to general manager on active facilities when new withdrawal is requalified five times or money that is kept from limbo when someone logs in. It is safe to remember features available depending on how many times, whether every week or two a reminder is implemented—mostly for free accounts to be safe from misuse. On occasions, verification documents to prove account or provide an updated identification record prompts pop up an error message. The 2nd option will stay grey; if it's the profile identification selection and the accounts still haven't been reverified even after repeating them all, try uploading these required verification documents since your documents approve (a few days as processing is not automatic), and you will finally be issued, meaning more cash or extra document-required withdraw limits. The regular three working days might be enough, considering that transactions, cashouts, pauses, bans, or self-exclusions won't affect loyal account standing. In cases where using the option could impact how reputations concerning credibility begin and stay lousy for too long. Some accounts receive a login-incorrectly incorrect password-incorrect notification.
