The field services, development, and sales offices are located across the US, while its international facilities are situated in many countries including Australia, Canada, India, China, South Africa, Mexico, Spain, the Netherlands, Argentina, Austria, and the UK.

With such a rich history and a long way traveled, the natural next step was for WMS to venture into online gambling. They are now one of the most respected online gaming developers around and are present at several of the world's best online casinos.
