According to the general definition, melee combat (also called close combat) is a short-range battle between opponents with the aim of power-related superiority over the opponent(s). It can be an unarmed or armed struggle.

[brabet oficial](#)

Hold'em is a very difficult game. As everyone's favorite WPT announcer Mike Sexton always says, it takes a minute to 7 learn and a lifetime to master.

Truer words were never spoken.

Most beginner poker players play far too many hands and take 7 them too far when they start to play Hold'em.

One of the first things you learn when you decide to become 7 a winning player is to play tight - that is, to play fewer hands.

You do this

because when you play 7 only quality starting hands, it makes your play on later streets much easier.

How to Win at Poker

Playing tight is absolutely 7 fundamental when learning to play winning poker. I say winning poker because everyone knows how to play poker but few 7 know how to play winning poker.

Your initial decision whether to continue with a

hand or not will be made before 7 the flop. Unlike on the flop and turn, which you might only find yourself playing once or twice an orbit, 7 you're making pre-flop decisions every single hand you play.

If you play too loose pre-flop, you're costing yourself money every time 7 you play a hand you shouldn't. Thus it's imperative the first strategy you master is playing tight before the flop.

Play 7 Only the Best Hands Before the

Flop

Before the flop you should be playing only the very best of starting hands.

You

7 should look for hands that are already monsters - AA, KK, QQ, etc. Play top-pair hands - i.e. ones that 7 make top pair and when they do, do so with a good kicker.

For example:

A-K, A-Q, K-Q, etc. You can 7 also play quality speculative hands, hands that flop big and take down big pots - e.g. T-9s, 8-9s, small pocket 7 pairs, etc.

All other hands

should be avoided like the plague. Not only do they show a negative expectation (see "EV 7 explained"), they're also very difficult to play after the flop.

A hand like K-5s

may look good, being a king and 7 suited, but appearances are deceiving here. This is in fact a very weak hand.

When it pairs its five, the five 7 is seldom the top pair on the

flop. When it pairs its king, it only has a five kicker and 7 will often find itself outkicked at showdown.

That's the nature of this hand and similar ones: they make poker

a guessing 7 game. You can never be sure of where you stand. They also leave you no possibility of making a straight.

Further 7 Reading:

Don't Be Fooled by the Flush!

You

may think that all of this is overcome by the hand's ability to make 7 a flush. No such luck. Being suited only adds 2% to its overall likelihood of winning.

Generally

speaking, if you would 7 fold a hand offsuit, you should probably fold it suited.

Flushes

don't come around nearly often enough to make up for 7 the downfalls of a poor starting hand. So stop limping weak hands just because they're suited.

Contrast that with a hand

7 like A-K. When A-K hits the flop you make top pair with the best kicker. You're never going to be 7 outkicked at showdown.

You can play this hand confidently - you know where you stand in the hand. "Guessing" is minimized.

Further 7 Reading:

When You Hit You Know

Where You Stand

This is why playing excellent starting hands make the later streets

easier. When 7 you hit you know where you stand. You have a quality hand that can see a showdown.

You're rarely going to 7 find yourself outkicked. If you only play hands that show a positive expectation pre-flop, the rest of your game will 7 fall into place.

Your

good pre-flop hands are going to make good post-flop hands, and you'll find your decisions on later 7 streets getting easier and easier the more trash hands you eliminate from your pre-flop holdings.

An extreme example of tight play 7 would be if you decided

to only play aces, kings and queens and you would fold everything else.

This would make

7 your play at the flop and after it very easy. There would be literally no guessing game.

If you held an 7 overpair you would bet; if not, you'd slow down. Marginal decisions would be eliminated. Everything would be black and white.

This 7 style, of

course, is highly exploitable and would never be profitable; it's merely an example of

how playing tight makes 7 things easier on the later streets.

I would never advise only

playing aces and kings, but that would be a better 7 strategy than playing every hand that comes your way.

Further Reading:

The Best Beginner Poker Strategy

Obviously the

best strategy is somewhere in 7 the middle. Fold your weak hands but play your strong hands aggressively.

As an amateur and a student of the game 7 you are guaranteed to make multiple mistakes in every session. And every time you make a mistake at a No-Limit 7 Hold'em table you run the risk of going broke.

The more marginal hands you play, the

more difficult your decisions will 7 be. And that means the more mistakes you will make.

The more mistakes you make, the more often you're going 7 to find yourself getting stacked.

If you start out only with quality holdings, you'll make the rest of your decisions easier.
