Many leisurely activities are viewed as sports, so you may wonder – is hiking a sport? After all, if golf makes the cut, you might think hiking would be too!

Hiking is not considered a sport because it is a recreational, non-competitive activity.

Additionally, the lack of spectators and competitors further differentiates it from other recognized forms of sport.

The long answer gets a bit more complicated.

While most physical activities fall into the black-and-white categories of sports vs. non-sports, hiking is one of the few that lingers in the gray areas in between.

This isn't helped by the fact that the word 'sports' has varying definitions.

Pinning down an exact definition and deciding whether hiking is a sport or not has come down to personal opinion.

Many hikers will fight to classify it as a sport, while outsiders tend to disagree! Definitions

Turning to the official definitions of sports and hiking should offer a valid solution, but

unfortunately, the terms are either too loosely defined or don't have enough consistency to make the decision! Sports

What exactly are sports?

Taking all of the definitions into account, a sport boils down to:

Being of a competitive nature

Requires a decent amount of physical effort

Takes skill in order to compete effectively.

Needs a level of entertainment for viewers

Since the beginning of time, sports and similar events were designed just as much for the audience's enjoyment as it was for the players.

As you can see, the common factors are so vague and different that deciding whether hiking effectively counts as a sport is impossible!

In some cases, sports need to be a competitive and skillful activity; in others, it just needs to be physical and fun.

Hiking

Hiking has a more consistent definition, but the wording seems to imply that this is a leisure activity or exercise instead of a full sport.

Each definition defines hiking as a long walk or a march for pleasure, with only a single definition

stating that it is also an exercise or military training.

There's no mention of the level of skill or any form of competition.

The technical definitions for hiking don't have much variation, but anyone who has put a decent amount of time and effort into hiking may consider the activity in a completely different light.

Few aspects of hiking seem to fall into the same category as most sports, but there's still room for debate.

### Pro-Sport Argument

There are a couple of common arguments that those fighting to identify hiking as a sport use to prove their point.

#### Physical Exertion

Sports do tend to require a higher-than-normal physical ability if you want to excel in them, and the same can be said of hiking.

Depending on the trail and duration of a hike, it can be a better workout than some actual sports.

Sports require more than just a physical intensity.

Unfortunately, just being physically demanding doesn't mean it's a sport.

Going to the gym or being a construction worker are also both physically taxing, but neither is a sport.

#### You Can Race!

Another common point is that racing against another person on a hike adds the competitive aspect that appears to have been lacking.

Racing on a trail is absolutely a sport, but it's no longer hiking.

Once the speed amps up and a form of competitiveness is added, it becomes the trail running sport.

This is a widely accepted sport, but despite the similarities to hiking, it is a different activity.

#### There's Skill Involved

Anyone can play sports, but it does take a certain level of skill to play them well.

Hiking is no different, and any hiker can tell you that the pros will fly by you on the trail with seemingly little to no effort.

(Un)fortunately, skill alone doesn't qualify an activity as a sport.

It takes skill to make artwork or create unique dishes in the kitchen, but neither are sports.

There are multiple levels to hiking, but that alone isn't enough to knock it out of the gray area.

### Anti-Sport Argument

Just as the pro arguments have a certain amount of validity, the anti-sport views are also valid.

Much like the pro-arguments, each point can be somewhat turned around.

#### Lack Of Competition

A major aspect of most sports definitions is a competitive factor.

Whether it's between individual players or entire teams, sports thrive on the competition to drive the activity forward.

Hiking just isn't on that same level.

Versions of hiking do promote a bit of competition, such as trail running or mountain running.

Some races include hiking and camping across long paths like the Appalachian Trail, so there's potential for competitiveness.

#### It's More Recreational

Hiking can often be done alone and is often done as a way to admire nature or get some exercise as opposed to playing competitively.

Most hikers view it as a leisure activity and don't try to take it too seriously.

Some are willing to pour their heart and souls into taking their activities to the next level.

These athletes are blowing past others on hiking trails and attempting hikes that take days or weeks to complete while camping along the way.

### Key Aspects Of Sports

There are little nuggets of truth to both sides of the argument.

If you were neutral before, you might still be struggling with which camp you want to stand-in.

Sports have four key aspects, and seeing where hiking falls into them may be enough to help you

decide.

### Physical Effort

Different sports have varying levels of physicality needed to succeed, but they all require some. Hiking is slower-paced than most, but its physical toll is on par with some of the hardest sports out there.

It's not an easy activity, so it could be considered a sport in this aspect.

### Skill Level

There are levels to hiking and a clear gap between the pros and the newbies.

Skill levels are apparent in every activity known to man, and hiking is no exception.

Having a group of 'professionals' that can perform this activity better than most is a step in the correct direction.

### Entertainment

Entertainment value isn't in most sports definitions, but it is a well-known factor that some may overlook.

Sports are a way for individuals or teams to see who is better at an activity, but it's also a way for others to be entertained by the competition.

Hiking simply doesn't offer any entertainment value.

Gorgeous views and fascinating wildlife aside, there isn't anything to see regarding the hiker's performance.

No matter how much you love hiking, no one stands on the sidelines (or sits on the couch) cheering you on.

### Competition

There are hints and potential of competition hidden in hiking, but overall, it's not a competitive endeavor.

Any time hiking turns into some form of a race; it can classify as a different activity, such as trail running.

The competitive nature is consistent in sports, and hiking just doesn't have that factor.

### Is Hiking a Sport: FAQs

Can hiking be considered a sport? Hiking can indeed be considered a sport as it involves physical exertion, endurance, and skill, requiring individuals to traverse various terrains and navigate challenging trails on foot.

Is a hiker an athlete? While hikers engage in physical activity and may possess athleticism, the term "athlete" typically refers to individuals participating in competitive sports, so a hiker is generally not categorized as an athlete in the traditional sense.

Is hiking a mountain sport? Although hiking often involves ascending mountains and can be physically demanding, it is not typically classified as a mountain sport like mountaineering or rock climbing, which entail specialized skills, equipment, and techniques for tackling steep slopes and technical routes.

### Is Hiking a Sport or Hobby?

Hiking can be both a sport and a hobby, depending on how individuals approach it.

For some, hiking is pursued as a sport, where they engage in more challenging and competitive hikes, aiming to improve their performance, set records, or participate in organized events.

On the other hand, many people view hiking as a recreational activity or hobby, enjoying it for leisure, exploration, and the physical and mental well-being it provides.

Ultimately, you could say that whether hiking is considered a sport or a hobby is subjective and varies from person to person based on their personal goals, level of involvement, and the way they approach hiking!

### Final Thoughts on Hiking

Hiking has enough factors going for it that it's in the gray area, but it still does NOT qualify as a sport.

It lacks too many points in its favor to join the ranks of other well-known and well-loved sports.

There's no denying the skill and physical ability that goes into excelling at hiking.

Clambering up a steep trail for hours is incredibly difficult, and any untrained hiker will realize that

fact within a quarter-mile.

Sport or not, it takes genuine skill and physical prowess to excel as hikers - but that doesn't mean you can earn an Olympic medal for tackling your next grueling trail.

## Ezra Feinberg apresenta "Soft Power": um álbum de música hipnótica e romântica

Há cerca de 20 anos, Ezra Feinberg chamou a nossa atenção como líder do coletivo de São Francisco, Citay, cujas explorações psicodélicas inspiradas no Beach Boys eram centrais num cenário independente psicodélico que florescia no norte da Califórnia na época. Nos últimos anos, ele mudou-se para o outro lado dos Estados Unidos e atualmente é um psicanalista praticante na região do Vale do Hudson, bwin 0015.com Nova York. Ele ainda faz música - este é o seu terceiro álbum solo - embora os elementos "rock" tenham sido gradualmente retirados de seu vocabulário, deixando apenas um romantismo hipnótico e triplo que BR guitarras acústicas, pianos elétricos, vibrafones, flautas, harpas e drones de sintetizador suave.

### Um álbum terapêutico, ambiente e minimalista

Feinberg foi um contribuidor chave no álbum Arp "Zebra" bwin 0015.com 2024, e muito do "Soft Power" (lançado bwin 0015.com 31 de maio) deriva do mesmo espírito - terapêutico, ambiente, minimalista e joguinho. Na faixa de abertura, Future Sand, Feinberg toca violão clawhammer folclórico enquanto o flautista David Lackner paira por cima, lembrando a beleza bucólica comovente de John Cameron e Harold McNair para a música de Kes. A faixa "Pose Beams" é uma peça de minimalismo suavemente pulsante, com músicos de drone semelhantes, como Robbie Lee e Jefre Cantu-Ledesma.

No geral, este álbum pode ser descrito como New Age, e certamente compartilha muito com a música meditativa clássica de artistas como Paul Horn, o Paul Winter Consort ou a gravadora Windham Hill. No entanto, ao omitir os vocais, o ruído e as improvisações freeform de bwin 0015.com música psicodélica rock, Feinberg conseguiu tornar bwin 0015.com música mais intensa e focada do que nunca.

## Lançamentos adicionais este mês

**Crosspiece** (lançado bwin 0015.com 30 de maio, Cherche Encore/Bandcamp) é um dueto esparsamente entre a vocalista **Theodora Laird** e o baixista **Caius Williams**, repleto de freakouts free-jazz e linhas de baixo hipnóticas. As vocais de Laird alternam entre observações post-punk bwin 0015.com branco, ululações banshee e acrobacias mezzo-soprano. Extraordinário e único.

**Orchestral Works** (lançado bwin 0015.com 24 de maio, Decca) é uma série de miniaturas comoventes e ansiosas do compositor islandês **Gabriel Ólafsson**, gravada com a Orquestra de Reykjavik, com novos arranjos de largura bwin 0015.com escala de melodias familiares de seus Lullabies for Piano and Cello, Solon Islandus e suas obras solo para piano.

**Foundling** é um conjunto experimental baseado bwin 0015.com Berlim liderado pela cantora canadense Erin Lang, e seu novo álbum Equilibria é uma mistura intrigante de dream pop, minimalismo de lixo e jazz brilhante da ECM, colocado bwin 0015.com algum lugar entre Julia Holter e David Sylvian.
