Domnitor's Treasure Review

BGAMING are a very classy online slot studio that has already

pleased fans of online slots on many different occasions. Can it do so again with

Domnitor's Treasure, or is this game actually not worth checking out? Well, we'll find

that out in this slot review, and there's no better place to start than the slot's

playing field. It's pretty classic, consisting of 5 reels, 3 rows and 25 paylines.

The

theme of Domnitor's Treasure is medieval, and it is actually inspired by real life

facts. You see, Domnitor was the ruler of Romania between 1862 and 1881, though the

actual slot takes place way before that, as there are swords and shields instead of

guns on its reels. Overall, the graphics are pleasantly colorful and polished, so yeah,

no issues there!

Domnitor's Treasure Slot – Reels Screen

Let's now take a look at the

mathematical model of Domnitor's Treasure. Its volatility is medium-high, and its

jackpot clocks in at 2,000x your bet. The very least that you can play for is then

£0.25, while the slot's max bet is £50 per spin. Unfortunately, the theoretical RTP of

Domnitor's Treasure is only 95.30%, which is a rather disappointing value.

Domnitor's

Treasure Slot Features

There are 8 pay symbols in Domnitor's Treasure, and they are

divided evenly into 4 low pays and 4 high pays. For low pays, there are your usual card

suits, while the game's high pays show maces, poleaxes, and two characters.

In terms of

special symbols, there are Domnitor Wilds, Scatters, and Coin symbols. Domnitor Wilds

are pretty straightforward, though they also come with some very solid payouts of their

own.

Domnitor's Treasure Slot – Free Spins Feature

In terms of gameplay, you can land 3

Scatters to trigger the Free Spins feature with 5 free spins. During free spins, you can land Giant Scatters to add 3 extra free spins to your tally, and that's because it all comes with the so-called Blazing Reels feature. This feature automatically combines the game's three middle reels into one giant one that shows 3x3 Giant symbols.

Landing

6 or more Coin symbols then triggers the Hold and Win feature, which has the usual formula of 3 respins that get reset whenever you land a new Coin symbol. Regular Coin symbols hold random values from 1x to 24x your bet, and there are also Mini Jackpot Coin symbols (worth 30x your bet) and Major Jackpot Coin symbols (worth 100x your bet). Filling the entire playing board with Coin symbols will then net you the Mega jackpot, which is worth 1,000x your bet.

Players that don't want to wait for the special symbols

to land naturally can also trigger the bonus features via the Buy Bonus option.

Triggering the Hold and Win feature this way costs 39.6x your bet, while triggering the Free Spins feature this way will set you back by 52x your bet.

Domnitor's Treasure Slot

– Hold and Win Feature

Review Summary

Well, what can we say? Domnitor's Treasure is a pretty decent Hold and Win slot from BGAMING. Its nice theme comes with polished graphics, and its two bonus features are rather enjoyable as well. It's a shame, then, that the game's theoretical RTP is so low, as it relegates the entire package down by at least an entire tier.
