First, let's start with the basics. The Asian Handicap, also known as the AH, is a way of leveling the odds between two teams in a sports match. It's a form of handicapping that gives a virtual advantage or disadvantage to a team, making the odds of winning more even.

Now, let's dive deeper into how the Asian Handicap works. Imagine you're betting on a soccer match between team A and team B. Team A is the favorite to win, so they get a handicap of -1. This means that they have to win by at least two goals for you to win your bet. If they win by one goal, the result is a draw, and if they lose or draw, you lose your bet.

On the other hand, team B gets a handicap of +1. This means that they start with a one-goal advantage. If they win or draw, you win your bet. If they lose by one goal, it's a draw, and if they lose by two or more goals, you lose your bet.

But that's not all! The Asian Handicap also offers a variety of handicaps that you can choose from, with different odds and payouts. For example, you could choose a handicap of -2, which means that team A has to win by three or more goals for you to win your bet. Or you could choose a handicap of +3, which means that team B has to win or draw for you to win your bet.

Now, you may be wondering why you should use the Asian Handicap. Well, the benefits are numerous. Firstly, it offers a more balanced and nuanced way of betting. It's not just about betting on a team to win or lose; you can bet on the performance of a team, giving you more ways to win.

A bookie places bets for customer, a usually on eSporting Event. They also set and pay out winnings on behalf of other people!
