I love unicorns and rainbows ,

ThisGame is very very frustrating when you die and you have so many things speaking 7 of that you can never really get so many things because like people just pop out of nowhere. I think 7 I don't like I don't think it's necessary to have a game mode where are you there has to be 7 Wi-Fi usually people aren't in their houses sometimes they are but a lot of families are really active and just 7 having the need to have them have a Wi-Fi thing that's just crazy. There are so many glitches I can't 7 even handle it when I'm like about to get so many things like there's a glitch and then it makes 7 me bump into someone and for people who are saying oh this game has no grudge is it all what 7 are people talking about or so wrong it's probably because the game like some more that's what people think but 7 of the game like in the more that's not true it's actually just the games fault and none of yours 7 if you think that's your fault don't think it's the game developers and the lags on it it's none of 7 your business for it to be going wrong. And I would really appreciate it if they would add some more 7 colors for the snake making. And when ever you like or about to be the biggest somebody has to cut 7 you off. And people all over the world think this is a frustrating game and I agree with them and 7 like when ever there is some glitch it's not your fault it's your devices the game and the game developers 7 don't think it's any of your fault.
