Version 2, June 1991

Copyright (C) 1989, 1991 Free Software Foundation, Inc.,  
51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA

Everyone is permitted to copy and distribute verbatim copies  
of this license document, but changing it is not allowed.

Preamble

The licenses for most software are designed to take away your

freedom to share and change it.

By contrast, the GNU General Public

License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Lesser General Public License instead.)

) You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price.

Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights.

These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have.

You must make sure that they, too, receive or can get the source code.

And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software.

If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents.

We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary.

To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and modification follow.

## GNU GENERAL PUBLIC LICENSE

### TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION.

This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License.

The "Program", below,

refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language.

(Hereinafter, translation is included without limitation in the term "modification".

) Each licensee is addressed as "you".

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.1.

You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.2.

You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

- a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.
- b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.
- c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License.

(Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.3.

You may copy and distribute the Program (or a work based on it,

under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:

- a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,
- b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,
- c) Accompany it with the information you received as to the offer to distribute corresponding source code.

(This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it.

For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.<sup>4</sup>

You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.<sup>5</sup>

You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.<sup>6</sup>

Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions.

You may not impose any further

restrictions on the recipients' exercise of the rights granted herein.  
You are not responsible for enforcing compliance by third parties to this License.7.  
If, as a consequence of a court judgment or allegation of patent  
infringement or for any other reason (not limited to patent issues),  
conditions are imposed on you (whether by court order, agreement or  
otherwise) that contradict the conditions of this License, they do not  
excuse you from the conditions of this License. If you cannot  
distribute so as to satisfy simultaneously your obligations under this  
License and any other pertinent obligations, then as a consequence you  
may not distribute the Program at all.

For example, if a patent  
license would not permit royalty-free redistribution of the Program by  
all those who receive copies directly or indirectly through you, then  
the only way you could satisfy both it and this License would be to  
refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under  
any particular circumstance, the balance of the section is intended to  
apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any  
patents or other property right claims or to contest validity of any  
such claims; this section has the sole purpose of protecting the  
integrity of the free software distribution system, which is  
implemented by public license practices.

Many people have made  
generous contributions to the wide range of software distributed  
through that system in reliance on consistent application of that  
system; it is up to the author/donor to decide if he or she is willing  
to distribute software through any other system and a licensee cannot impose that choice.  
This section is intended to make thoroughly clear what is believed to  
be a consequence of the rest of this License.8.

If the distribution and/or use of the Program is restricted in  
certain countries either by patents or by copyrighted interfaces, the  
original copyright holder who places the Program under this License  
may add an explicit geographical distribution limitation excluding  
those countries, so that distribution is permitted only in or among  
countries not thus excluded.

In such case, this License incorporates  
the limitation as if written in the body of this License.9.

The Free Software Foundation may publish revised and/or new versions  
of the General Public License from time to time.

Such new versions will  
be similar in spirit to the present version, but may differ in detail to  
address new problems or concerns.

Each version is given a distinguishing version number. If the Program  
specifies a version number of this License which applies to it and "any  
later version", you have the option of following the terms and conditions  
either of that version or of any later version published by the Free  
Software Foundation.

If the Program does not specify a version number of  
this License, you may choose any version ever published by the Free Software Foundation.10.  
If you wish to incorporate parts of the Program into other free  
programs whose distribution conditions are different, write to the author  
to ask for permission.

For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this.

Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

#### NO WARRANTY

BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED

OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING,

REPAIR OR CORRECTION.

IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES,

INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING

OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY

YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER

PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

#### END OF TERMS AND CONDITIONS

#### How to Apply These Terms to Your New Programs

If you develop a new program, and you want it to be of the greatest possible use to the public, the best way to achieve this is to make it free software which everyone can redistribute and change under these terms.

To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

#### Copyright (C)

This program is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation; either version 2 of the License, or (at your option) any later version.

This program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for more details.

You should have received a copy of the GNU General Public License along with this program; if not, write to the Free Software Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA.

Also add information on how to contact you by electronic and paper mail.

If the program is interactive, make it output a short notice like this when it starts in an interactive mode:

Gnomovision version 69, Copyright (C) year name of author

Gnomovision comes with ABSOLUTELY NO WARRANTY; for details type `show w'.

This is free software, and you are welcome to redistribute it under certain conditions; type `show c' for details.

The hypothetical commands `show w' and `show c' should show the appropriate parts of the General Public License.

Of course, the commands you use may

be called something other than `show w' and `show c'; they could even be mouse-clicks or menu items--whatever suits your program.

You should also get your employer (if you work as a programmer) or your school, if any, to sign a "copyright disclaimer" for the program, if necessary.

Here is a sample; alter the names: Yoyodyne, Inc.

, hereby disclaims all copyright interest in the program

'Gnomovision' (which makes passes at compilers) written by James Hacker.

, 1 April 1989

Ty Coon, President of Vice

This General Public License does not permit incorporating your program into proprietary programs.

If your program is a subroutine library, you may

consider it more useful to permit linking proprietary applications with the library.

If this is what you want to do, use the GNU Lesser General Public License instead of this License.

Alguns anos depois que meu pai morreu, descobri ele era um mentiroso. Eu o amava enormemente! Mas eu fui mentirosa 6 e cresci onabet quantos saques por dia Inverness onde Meu Pai Mateusz foi alfaiate bem-gostado; Ele também é refugiado com sotaque do Leste Europeu 6 mas fugiu de onabet quantos saques por dia aldeia no sudeste da Polônia durante a Segunda Guerra Mundial...

O pai sempre foi um pouco vago 6 sobre o seu passado, mas eu percebi que como muitos da onabet quantos saques por dia geração ele não gostava de falar acerca do 6 conflito. Foi só quando fui para a aldeia onde morava onabet quantos saques por dia 2003, agora no oeste ucraniano e descobri as histórias 6 dos primeiros anos dele nos contaram-nos apenas isso: eram estórias; mentia na religião deles ou com os familiares durante uma 6 guerra – eles simplesmente desmoronavam uns após outros!

Quinze anos antes, na primavera de 1988 eu sentei-me com o pai e 6 um gravador cassete no workshop que ele tinha montado onabet quantos saques por dia meu quarto antigo. Ele estava 69 E semi aposentados Eu 6 era 29 Anos visitando a partir De Londres Onde I foi fazer Meu Caminho Como ator Papai havia vendido 6 onabet quantos saques por dia loja Em Inverness Um par dos ano anteriores Meus pais tinham comprado Sua casa do conselho EM Dalneigh - 6 A propriedade 1950 onde crescia...

Eu tive uma ideia que eu poderia querer escrever sobre o pai no futuro, embora não 6 soubesse qual a forma de tomar. Vinte anos depois fiz meu primeiro show com um homem só:

O alfaiate de Inverness

Contando 6 a história de como descobri quem era meu pai e os segredos que ele havia mantido

da família escocesa por 6 décadas.

Embora 6 ele mal falasse da guerra, papai falava ainda menos de onabets quantos saques por dia juventude no sudeste do Polônia ou oeste ucraniano como 6 tem sido desde 1945. Quando menino na década dos anos 1960, eu ficava com a impressão ocasional quando uma sequência 6 particular onabet quantos saques por dia série documental :

Todos os nossos Ontems

, chegaria ao seu banco de memória. Ele não disse nada enquanto nos 6 sentávamos no settee assistindo a televisão; mas o banho onabet quantos saques por dia seus olhos revelou outra coisa diferente: Mas qual era? Normalmente 6 ele olhava para frente e vivia com energia na atualidade - um homem otimista que estava sendo bem-sucedido como alfabetizador 6 mestre nas Highlands (Terra Alta).

Meu pai morreu de repente, quatro anos depois das nossas conversas gravadas onabet quantos saques por dia 1992. Alguns meses 6 antes onabet quantos saques por dia integração social foi coroada quando ele se tornou mestre da loja maçônica dele na Inverness lodge in Incredibly 6 minha esposa Virginia e eu tínhamos levado a mãe para Polônia no 1990 visitar seu irmão Adam Silésia A União 6 Soviética entrou colapsou o ano seguinte E Ucrânia ganhou independência Eu estava pensando levá-la ao local onde nasceu Isso era 6 redundante agora I wardened Ele ficou grande...

Seis anos depois, decidi fazer algo com as fitas. Ele estava na sala novamente 6 e fui transfixado! Transcrevi-me para que minha curiosidade fosse despertada por vários momentos de incerteza onabet quantos saques por dia 1941 no campo da 6 Polônia; falta clareza sobre um encontro ou lugar: onabet quantos saques por dia infância foi conta uma história vívida do vilarejo galego (o problema 6 relacionado à viagem durante a guerra). Me contou como ele era capturado pelos soldados poloneses quando ainda eram jovens

Em uma 6 jornada épica por terra através do Oriente Médio, ele chegou ao Egito e com outros soldados poloneses se juntou o 6 8o Exército de Montgomery. Eles lutaram no norte da África onabet quantos saques por dia 1943 antes que a invasão Sicília avançasse até as 6 botas italianas! Distinguiram-se na Monte Cassino - A maior vitória polonesa durante toda guerra – 1.000 milhas fora das suas 6 casas Quando Alemanha rendeu seu pai estava nas costas dos mares Adriaticos (Ancona).

Ele acabou onabet quantos saques por dia uma unidade polonesa do exército 6 britânico na Itália um mês após o fim da guerra. Dada a escolha de retorno à Polônia ou reassentamento no 6 Reino Unido, ele escolheu este último como muitos poloneses nesta posição medida que as tomadas comunistas ficavam claras e 6 sabia também se haveria algum regresso ao gulag para ser preso --ou pior ainda: escolheria sobreviver!

Através de um primo onabet quantos saques por dia Nova York, ele descobriu que seu irmão 6 mais velho Kazik estava na Escócia. Em 2003, decidi visitar o local de nascimento do pai 6 na Ucrânia, algo que ele nunca tinha sido capaz fazer. Os soviéticos repetidamente recusaram-lhe um visto e por isso não 6 se reuniu com a mãe dele (que morreu onabet quantos saques por dia 1971). Antes da guerra Pidhaisi era uma cidade predominantemente judaica onde 6 meu Pai foi para alfaiataria: 90% dos costureiros galegos eram judeus então como todas as pequenas cidades fora Galícia; apenas 6 os seus poucos habitantes tinham seu próprio gueto

Naquela viagem, descobri que a avó nunca conheci era ucraniana e não polonesa; 6 como as

fronteiras flutuavam durante o conflito meu pai havia sido recrutado para exércitos diferentes lutando tanto pela Wehrmacht quanto 6 pelo Exército Vermelho. O único ao qual ele jamais se juntou foi no exército polonês

Para a nossa família, o mais impressionante revelação foi que ele tinha se casado 6 onabet quantos saques por dia 1940 e teve uma filha Irena minha meia-irmã. Eu rastreei ela difícil de transmitir quão poderoso encontro com 6 Irena era onabet quantos saques por dia mãe Uma vez que eu tinha superado o choque de meu pai ter passado a vida na Escócia 6 reivindicando uma história não sua, percebi onabet quantos saques por dia mim um fato mais profundo sobre os impactos traumáticos da guerra e migração. 6 Meu Pai escolheu essa estória porque queria se encaixar no seu país natal adotado; era muito melhor doque mudar as 6 linhas dianteiraes das fronteiras para encontrar pessoas com problemas ideológico-desenvolvidas numa família abandonada ou rivalmente violentada por causa dos seus 6 pedidos à Síria - espero assim quando alguém chegar ao nosso lugar onde possa olhará nas nossas guerras!
