The WPT Action Clock has generally received positive reviews since it debuted at the Season XIV WPT Tournament of Champions. The goal was to speed up play in later stages of a tournament – striking a balance in speeding up play but also offering opportunities for time extensions when players have particularly difficult decisions.

However, as tour events continue to attract bigger and bigger fields, a few changes were added beginning with the WPT Seminole Hard Rock Poker Showdown.

The Action Clock comes into play when a tournament is one full table off the money bubble and continues until a champion is crowned. Each player has 30 seconds to act on a hand, and received four time-extension chips for an extra 30 seconds each. Players reaching the final three tables of the tournament are then reset to a maximum of six time-extension chips, and those at the final table are reset to a maximum of eight chips.

Now, the tour is adjusting the number of time chips players receive based on the number of players who will cash in an event.

“What happened at the Borgata [Winter Poker Open] is that we just had so many people in the money,” WPT executive tour director Matt Savage (pictured) says. “It was always four time extensions to play down to 24. We could have been paying 28 and from 28 down to 24, you got four time chips. At the Borgata, we paid 136, which is great, and you got four down from that to 24. Is that fair?”

Players basically had to play a full day with four time chips because of the increased number of entries. The tour is now trying to adjust for those increases and distributing more chips accordingly.

“We’re giving more time chips based on the number of players paid,” Savage says. “Players brought it up to me and obviously it makes sense that if we’re playing that many more, that it’s not

really fair for them to be getting the same amount of time chips.”

Players can now receive as many as 10 time-extension chips when the Action Clock comes into play. Once play reaches 24 players, all other time extension rules remain the same. A full copy of Action Clock rules can be found here.

Here’s a look at the new time chip structure for future tournaments when the Action Clock is put into play:

Number of players in the money Number of time-extension chips (per player)
25-34 players Two (2) time-extension chips, per player
35-44 players Three (3) time-extension chips, per player
45-64 players Four (4) time-extension chips, per player
65-80 players Five (5) time-extension chips, per player
81-100 players Six (6) time-extension chips, per player
101-120 players Seven (7) time-extension chips, per player
121-140 players Eight (8) time-extension chips, per player
141-160 players Nine (9) time-extension chips, per player
161+ players Ten (10) time-extension chips, per player
