Spread-Bet Roulette

Introduction

Spread-Bet is a set of side bets in

roulette by Cammegh, a maker of gaming equipment, including roulette tables and signs.

The outcome is based on the sum of two electronic spins, as shown to the player on the electronic game display.

Rules

Spread-Bet is a set of seven side bets that can be added

to a standard roulette game. Following are the rules.

In addition to the standard

roulette spin, two random outcomes will be drawn electronically and displayed to the

player virtually on the scoreboard in the form of two concentric roulette wheels. The

two virtual spins will be on the same kind of roulette wheel as the physical spin. In

other words, the same number of zeroes will be used. There are seven bets to choose

from, which will win according to the sum of the two virtual spins. These betting

spaces will be placed in the area for outside bets. The win of the Spread-Bets shall be

based on the sum of the two virtual spins. Both the zero and double-zero shall count as

zero for purposes of this sum. The seven different Spread-Bets cover various ranges

from 0 to 72. Different versions are available to the casino operator, which are shown

in the analysis section of this page.

tables show the four sets of bets available to casino operators for single-zero wheels.
