Ultimate 7 Texas Hold 'Em (also known as Ultimate Texas holdem and Ultimate Texas Hold'em) is registered trademark of Bally Gaming, Inc. 7 and refers to a reinvented variant of the classic poker game Texas hold 'em. In this variation, the player does 7 not compete against other players. Instead, they play only against the dealer. At any point during the course of the 7 hand, the player is free to make one raise. In this poker-based game (community cards), the earlier the raise is 7 made, the higher its value is.

The game begins with the player making a blind bet and an ante. They are 7 also provided with an optional Trips side which allows them to acquire a payout whether their hand loses or wins. 7 Ultimate Texas Hold 'em is different from other poker-based games in the sense that the ante still remains in play 7 even after the players made a raise and even if the dealer does not open.[1]

Objective [edit]

The format of 7 Ultimate Texas Hold 'Em is similar to other variants of poker available in most casinos and online poker sites. The 7 player and the dealer will both get two cards. The player will then be allowed to look at his cards 7 and decide if he wishes to check or raise four times the ante. Another option available to the player is 7 raising three times. If the player decides to raise at any point during the hand, the action will end from 7 his end.

After deciding to raise, the player will be shown three cards which are referred to as the “flop”. The 7 other players who did not raise before the flop will be given the choice to raise twice the ante. Another 7 option available for the player would be checking. After the table has resolved the post-flop betting, the last two cards 7 will be revealed. By this time, the players will be required to either match their ante or fold. After this, 7 the dealer will reveal his two cards and grade the hand. In order for the dealer to qualify, he must 7 possess at least a paired board. The ante pushes if the dealer fails to qualify. The same is true even 7 in a scenario where the player possesses a hand that loses to the dealer. On the other hand, if the 7 dealer qualifies, the one who wins the ante bet will be the player with the best hand.

Despite the dealer's disqualification, 7 the raises and the blind will still remain in play. Meanwhile, if the dealer beats the player, the blind bet 7 and the raise will both lose. On the other hand, if the player beats the dealer, their raise will be 7 matched. Ties push both the raise and the blind bet.

History [edit]

Ultimate Texas Hold 'Em was developed by Roger 7 Snow of Bally Gaming, Inc. (formerly Shuffle Master).[2][3] It is one of the newest variations of the poker game and 7 is currently widely popular among US casinos. It is one of the most in-demand niche table games in 7 Las Vegas and many other states.[4]

Initially, Ultimate Texas Hold 'Em was only available on multi-player electronic machines. However, through the 7 years, its popularity increased and some casinos decided to pick it up and expand it, turning it into a table 7 game.[5][6]

Rules [edit]

Like the common poker game formats, Ultimate Texas Hold 'Em is played with a single, regular 52-card 7 deck. Towards the end of the game, the dealer and the players left use any combination from their own two 7 cards and the five community cards in order to come up with the best possible hand for themselves. The dealer 7 will only be able to open if they possess at least a paired board. The play, ante, and blind bets 7 are graded, depending on who wins, and whether the dealer will open. The table below illustrates the scoring guidelines.

| Winner Dealer 7 | Opens Play Ante Blinds Player Yes | Win Win Win Player No | Win Push Win Dealer Yes | Lose Lose Lose Dealer 7 | No Lose Push Lose Tie | Yes or No Push Push Push |
|-----------------|-----------------------------------|-----------------------|-------------------------|-------------------------|-----------------------|--------------------------|
|-----------------|-----------------------------------|-----------------------|-------------------------|-------------------------|-----------------------|--------------------------|

Winning play and ante bets are rewarded 1 to 1. 7 Look at the table below to learn how winning blind bets are paid out.

| Player hand Payout | Royal Flush 500 to 7 | 1 Straight Flush 50 to 1 | Four of a Kind 10 to 1 | Full House 3 to 1 | Flush 3 7 to 2 | Straight 1 to 1 | All other Push |
|--------------------|----------------------|--------------------------|------------------------|-------------------|----------------|-----------------|----------------|
|--------------------|----------------------|--------------------------|------------------------|-------------------|----------------|-----------------|----------------|

On the other hand, the payout for trips bets depends on the 7 value of the player's hand – regardless of the value of the hand possessed by the dealer.
