NBA structure

If you're not familiar with the NBA, the structure can be a tad confusing at first. 30 teams are divided into divisions. They then play a significant 82 matches to see who can finish in one of the top eight positions and secure a place in the playoffs. This is made up of four matches against their four division opponents, four against their six conference opponents, three against the other four teams in the conference, and a couple of matches played against squads in the opposing conference.
