Evolution Arabic Roulette Review

Arabic Roulette (also known as rulin arabiin

) is one of Evolution Gaming's popular native speaking roulette games.

It joins a

growing list of localised table games including London Roulette, Venezia Roulette, Deutsches Roulette and Svensk Roulette. The idea behind these tables is simple. The dealer speaks purely in the native language of the customer.

That means 100% of the

conversation and commentary in this game is in Arabic. This creates a comfortable and familiar experience for players who speak the language. Of course, non-native speakers will feel completely out of the loop!

Filmed from Evolution's Malta studios, the

provider has tried hard to offer an authentic playing environment. Elaborate patterns and ornate walls fit perfectly into the Middle Eastern theme. For more details on the game and how it works, continue reading our full Evolution Arabic Roulette review.

How

to play Arabic Roulette

Arabic Roulette is a single zero roulette game played on a

Huxley wheel. With this in mind, this game plays out very much like a traditional

European or French roulette game. There are no additional side bets, jackpots or bonus features. That means the house edge is a reasonable 2.70%.

As with any roulette game,

you bet in which pocket you think a metal ball will fall into. There is a vast range of betting options and styles you can use to tailor make your strategy.

While

nowhere near as fast as speed roulette - members can enjoy a pacy betting experience.

The Arabic Roulette dealers are skilled in keeping the conversation flowing - and the ball rolling.

It should be noted that the dealers in this game are outstanding. They are chatty and fun - communicating 100% of the time in Arabic.

Arabic Roulette Bonus

To maximise your enjoyment on Arabic Roulette, you can take advantage of an introductory welcome bonus. Available to new players, using a bonus will give you more funds to have a spin on this popular game. You can even withdraw the money into your real balance if you can satisfy the wagering requirements.

If you're an existing customer, then you can look out for special promo code bonuses. By using these exclusive codes, you can be entitled to an improved welcome bonus. Finally, check out the casinos promo page for details of upcoming offers.

Please note: Not all bonuses will be available to use on Arabic Roulette. Check the terms and conditions for more details.

Arabic Roulette Strategy

As there is no

extra mechanics in this game, you can approach Arabic Roulette strategy in the same way you approach a European or French game. Here are some frameworks you can use:

Low Risk:

Red or Black

Thanks to the low house edge afforded by the single zero wheel - it's entirely possible to play a red/black strategy. Simply bet on red or black exclusively during each game round. If you're lucky, you may slowly build up your bankroll. While this strategy is considered low risk - keep in mind you can slowly whittle your balance away with the low returns.

Medium Risk: Martingale

Arabic Roulette can also be played

using popular strategies like the Martingale. To use this strategy, double your bet level on a loss. When you finally win, reduce your bet back to the default level. The Martingale is popular due to its near 100% chance of success. But keep in mind that bet levels can raise quickly - and table limits will eventually make the strategy ineffective.

High Risk: Reverse Martingale

A tweak of the original Martingale system

that leads to a more high risk, high reward system. Instead of doubling on a loss, you double on your wins. This can produce short bursts of significant profits. However, you may eventually run into some bad luck which will bring you back down to zero.

Arabic Roulette Betting Software

Evolution uses the same betting

user interface for all their native speaking games. Not only is this software easy to use - it also indulges your individual playing style. Here are all the options available:

Main Betting Area: Here you can select which spaces of the wheel you wish to bet on. All of the popular roulette betting options are available including columns, 12s, hi/lo and even/odds.

Chip Selector: This allows you to choose how much you wish to bet.

Roulette Racetrack: The racetrack gives you yet another option to place your wagers - and also comes with popular french betting options.

Autoplay: You can set each game round to play automatically for you. Choose how many rounds you wish to play for and how much you want to bet. The game will now place your bets for the specified number of game rounds.

Repeat: If you are not playing autoplay, you can choose to play the same bets from the last game round using this option.

Undo: If you change your mind about a bet, press the undo button - this will remove the last bet from the board.

Chat: To chat with the host, simply enter a message into the chat window box and press send.

Our Verdict

Evolution Arabic Roulette is an essential choice for Arabic speaking roulette players. Not only are the dealer's friendly and personable - the experience is immersive thanks to clever studio design. In the gameplay department, there's not much to say - it's a single zero roulette wheel. That means you get to enjoy one of the best house edges in online roulette.
